Computer / Programming Experience

CSC 1310 Spring 2026 Post-Course Experience Survey

Time Requirement: under 10 minutes

Purpose: The purpose of the post-course experience survey is to measure growth in learning in the course and to determine the aspects of the course that contributed most positively to your learning experience.

If you have any questions about this survey, you may contact April Crockett, acrockett@tntech.edu.

Please rate your experience with using each of the following in your programs:

	No Experience At All	Very Little Experience	Slightly Experienced	Between Slightly and Moderately Experienced	Moderately Experienced	Very Experienced
Classes & Objects	○	○	○	○	○	○
Searching algorithms	○	○	○	○	○	○
Sorting algorithms	○	○	○	○	○	○
Recursion	○	○	○	○	○	○
Template Classes/ Generics	○	○	○	○	○	○
Lists / Linked Lists	○	○	○	○	○	○
Stacks	○	○	○	○	○	○

	No Experience At All	Very Little Experience	Slightly Experienced	Between Slightly and Moderately Experienced	Moderately Experienced	Very Experienced
Queues	○	○	○	○	○	○
Priority Queues	○	○	○	○	○	○
Hashing / Hash Tables	○	○	○	○	○	○
Trees	○	○	○	○	○	○
Binary Search Trees	○	○	○	○	○	○
Balanced Trees / AVL Trees	○	○	○	○	○	○
Heaps	○	○	○	○	○	○
Treap	○	○	○	○	○	○
Graphs	○	○	○	○	○	○
B-Trees	○	○	○	○	○	○
Sets	○	○	○	○	○	○
Associative Array, Map, or Dictionary	○	○	○	○	○	○

Rate your experience with the following:

	No Experience At All	Very Little Experience	Slightly Experienced	Between Slightly and Moderately Experienced	Moder Experie
Writing test cases	○	○	○	○	○
Big-O notation	○	○	○	○	○
Choosing the correct data structure	○	○	○	○	○
Writing classes	○	○	○	○	○

Rate your experience with the following:

	No Experience At All	Very Little Experience	Slightly Experienced	Between Slightly and Moderately Experienced	Moderately Experienced	Very Experienc
Problem decomposition: Breaking the desired functionality into separate parts (e.g. functions) that can be implemented separately	○	○	○	○	○	○
Parallel processing: Computing where the operations within a program are being executed simultaneously (i.e. running on different cores of the processor at the same time)	○	○	○	○	○	○
Distributed computing: Computing with a program that runs using data from a different computer (i.e. an online service)	○	○	○	○	○	○
Event handling: Having a function that responds to an independent action (i.e. a mouse click)	○	○	○	○	○	○

To what extent do you agree or disagree with the following statements?

	Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
In general, my interest in	○	○	○	○	○	○	○

	Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
computing is high.							
My interest in learning about parallel and distributed computing is high.	○	○	○	○	○	○	○
In general, I believe learning about parallel and distributed computing is important.	○	○	○	○	○	○	○
I believe I have a good understanding of computing.	○	○	○	○	○	○	○
I believe I have a good understanding of parallel and distributed computing.	○	○	○	○	○	○	○

The CSC 1310 course learning goals are listed below. Rate your level of agreement with the following statements.

	Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
I understand problem-solving tools and algorithm development.	○	○	○	○	○	○	○
I am able to select and code appropriate data structures for a given problem.	○	○	○	○	○	○	○
I have continued to learn to develop, design, code, debug, maintain, and document programs.	○	○	○	○	○	○	○
I understand how to perform the runtime	○	○	○	○	○	○	○

	Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
analysis of a program.							
I am able to write intermediate-level programs in C++.	○	○	○	○	○	○	○

What specific changes or adjustments should be made to enhance the overall learning experience in this course?

What is the most useful skill that you acquired or improved in this class?

TTU Email Address:
(only used to connect your responses at the beginning and end of the course)

What is your major? (select all that apply)

Computer Science
Basic Engineering
Chemical Engineering
Civil Engineering
Computer Engineering
Electrical Engineering
Interdisciplinary Studies / Interest in Computer Science

Manufacturing Engineering Technology / Mechatronics Engineering Technology

Math

Mechanical Engineering

Music (Live Audio Arts & Sciences Option)

Nuclear Engineering

Physics
